Dear musicians! Dear singers! Dear dancers! Dear comedians! Dear actors! Dear clowns and mimes! Dear puppeteers!, , , , , , and all other Artists and performing artists.

D e a r f e l l o w m e n

What unites a l l people nonverbally is ART

P e a c e amongst us humans: only an illusion? Just a figment of the imagination of dreamers?! No: PEACE is a deep longing - PEACE can be achieved by people who are of good will and join together

Let us remember Martin Luther King: "I have a dream" - Mahatma Gandhi: "In a gentle way, you can shake the world." - thinking of Bertold Brecht "Suppose they gave a war and nobody came."

THOSE LIVING IN WAR ZONES HAVE NO CHOICE

Let us think of and thank all known and unknown fellow humans who with her indelible desire for PEACE risk their own lives.

Our political world is turned once again upside down: old divisions are artificially torn open - turning into graves to innocent people, deprived of their lives.

TOGETHER WE SAY "STOP" to power and wealth-greedy warmongers and war profiteers who unscrupulously cash in on the endless suffering of the innocent.

I encourage YOU to take part in a crazy plan: "real crazy", says my mind. "You're just making a fool of yourself, , , , , .``

"D A R E!" MY HEART CALLS OUT

- AND I WANT TO TOUCH YOUR HEARTS -

FIFTY MILLION PEOPLE worldwide are fugitives - a figure that has burnt into my brain. Pure Madness on our unique BLUE PLANET, with enough space for living and food for all people.

During the Spanish Civil War the great cellist Pablo Casals, whom I admire, played at the end of each of his concerts a SONG FOR PEACE -a beautiful melody: Let us follow his example!

THIS NOW IS THE CALL TO ACTION:

How overwhelming, exciting and providing hope it would be if world wide many artists joined in by ending their performance with a piece of music, a song, a dance, a mime to the subject of PEACE?

For PEACE we Humans must act in solidarity!

Our CHILDREN should not and must not have the hatred of their parents transferred onto them:

as human beings we are sisters and brothers - completely irrelevant as skin color and religion.

Music Unites: as dancing and singing together makes us happy I am d r e a m i n g of a Global network dedicated TO MUSIC FOR PEACE

- A wonderful "world wide web" -

Let us put the power of M u s i c to work for hope and against the senseless destruction: without spending billions for wars and rebuilding instead all malnourished children on earth, can be fed, receive medical care and education to lead to an independent life.

E v e r y o n e can contribute: children, pupils, students, trainees, mothers and fathers, grandmothers and grandfathers, aunts and uncles, nieces and nephews, cousins -

This is the sincere wish of a desperate 62-year-old medical doctor (GP), who's parents and Grandparents experienced and suffered the First and the Second World Wars and wished for more PEACE in the 21st century.
